Dear WILLIAM SMITH,

On behalf of the CAIA Association, let me be the first to congratulate you on passing the CAIA Level I examination. Passing this CAIA exam is the first step towards earning the CAIA designation. Of those who sat for the exam in March 2012, 68% were successful in passing.

Below is a performance profile developed for you to aid in self-assessment by indicating your areas of relative strength and weakness compared to a reference group. This reference group is comprised of candidates who scored within the bottom quartile of those who passed the exam in March 2012. To create your profile, your performance by topic was compared to the reference group and was categorized into relative performance levels to reflect the distance between your performance and that of candidates in the reference group. More information on how to interpret this Candidate Performance Report is available in the [Grading FAQs](#) section of the CAIA website.

This detailed performance profile is provided for your reference only. Note that your pass status is determined by your performance on the entire examination, rather than by your performance on each topic. Candidates' actual scores are not released.
